About Us

PT MULTI MAKMUR TEKNIKATAMA is a manufacturing company that specializes in Thermal Oil Heater Unit, Heating Equipment, and Stainless-Steel Tank. We have more than 30 years of experience in the field of manufacturing of Thermal Oil Unit, Heating Equipment, and Heating Instrument.

Established in 1992, our company has been trusted in designing and fabricating total heating systems, specialized thermal plants, and heat exchangers in a broad variety of configurations. Our knowledgeable technical team and our precise production method ensure that your plant will meet the optimal and highest quality level of system.

We can assure customer satisfaction, competitive prices, quick delivery, excellent quality, and our best after sales service. All equipment and part are designed, manufactured, and controlled to achieve the most optimal and efficient performance in your industrial processing system.

Our Services

- Heating System
- Processing Tanks and Mixers
- Piping and Installation
- After Sales Service
- Instrumentation and Control Component
- Consultation
- Training
